
Boroo Pte. Ltd Publishes 2021 ESG Report

SINGAPORE – October 1, 2021 – Boroo Pte. Ltd (“Boroo” or the “Company”), a gold producer with operations in Mongolia and Peru, announces the publication of its first Environmental, Social and Governance (ESG) report. The company, which expanded its asset portfolio in 2021 and plans to list imminently on the Toronto Stock Exchange, strongly believes that the sustainability of the organization is tied to the wellbeing of society and the environment that all stakeholders share. Boroo has structured its 2021 ESG report along the Responsible Minerals Initiative’s (RMI) Risk Readiness Assessment (RRA). It provides investors, customers, employees, communities and other stakeholders with a contemporary view of its material ESG risks and opportunities, and how they are managed.

“Maintaining trust with our broad range of stakeholders is vital for us to operate a sustainable and successful business” said Chief Executive Officer Dulguun Erdenebaatar. *“This will be one of many ESG reports over the years as we transparently share the details of our ESG journey with you. We will develop our ESG programs, formal reporting, broader communication and assurance progressively over that time.”*

In addition to its RRA focus on ESG management, Boroo plans to implement the disclosure standards for Metals and Mining of the Sustainability Accounting Standards Board (SASB) to provide a second perspective to capital markets on their ESG performance.

The report also showcases Boroo’s connection to local communities via the ESG programs that it implements in partnership with its local stakeholders.
